PROFESSIONAL SUMMARY

React Native Developer with 4+ years of experience building scalable Android & iOS applications used by thousands of users across government, fintech, and enterprise domains. Experienced in real-time systems, face recognition systems, and high-performance mobile architectures. Proven ability to optimize performance, reduce load time, and deliver production-ready apps.

SKILLS

Core: React Native, JavaScript (ES6+), TypeScript

State Management: Redux Toolkit, Redux, Zustand

Backend & APIs: Firebase, REST APIs, Supabase

AI/ML: ML Kit, TensorFlow Lite (Face Recognition)

Native Development: Android (Java/Kotlin)

Tools & DevOps: Git, GitHub, Postman, SonarQube

Platforms: Android Studio, Xcode, Play Store, App Store Connect

Soft Skills: Leadership, Team Collaboration, Problem Solving, Time Management

WORK EXPERIENCE

React Native Developer, Codebucket Solutions Pvt. Ltd. - Patna, Bihar

Feb 2024 – Present

- Leading development of a large-scale state government digital platform (Bihar)
- Built real-time chat system using Firebase & WebSocket
- Implemented face recognition system using ML Kit + TensorFlow Lite
- Developed AR-based navigation module for enhanced user interaction
- Improved app performance by 30% and reduced load time by optimizing rendering and API handling
- Ensured code quality using SonarQube and conducted code reviews
- Collaborated with cross-functional teams in Agile environment

React Native Developer, CFCS Cloud Solutions - Noida, India

Feb 2022 – Feb 2024

- Developed applications across CSMS, HRMS, and Fintech domains
- Implemented scalable state management using Redux Toolkit
- Integrated secure REST APIs and authentication flows
- Implemented Firebase push notifications for real-time engagement
- Deployed apps on Play Store and App Store
- Improved UI responsiveness by ~25% by reducing unnecessary re-renders

PROJECTS

State Government Digital Platform (Bihar)

- Developed real-time communication system supporting 1k+ users
- Built face recognition system for attendance & authentication
- Implemented AR-based navigation for improved user onboarding
- Play Store: <https://play.google.com/store/apps/details?id=com.bipardadmin>

Tech: React Native, Firebase, WebSocket, TensorFlow Lite, ML Kit

Fuji CSMS

- Built customer service management system for request tracking
- Designed scalable architecture for multi-user handling
- Play Store: <https://play.google.com/store/apps/details?id=com.fuji.cms>

Tech: React Native, Redux Toolkit, Firebase, REST APIs

Bharat Bank (Fintech App)

- Developed UPI-based application for payments, recharge & bill services
- Integrated secure APIs for financial transactions
- Play Store: <https://play.google.com/store/apps/details?id=com.onestack.bharatbank>

Tech: React Native, Redux, API Integration

Omada eHRMS

- Built attendance & HR management system with geo-location tracking
- Integrated Google Maps for location-based features
- Play Store: <https://play.google.com/store/apps/details?id=com.cfcs.app.omada>

Tech: React Native, Firebase, Google Maps

ACHIEVEMENTS

- Improved application performance by up to 30% across production apps
- Enhanced UI responsiveness by ~25%
- Delivered scalable applications used by thousands of users
- Built mobile solutions including real-time chat and face recognition systems
- Managed end-to-end feature development and deployment

EDUCATION

B. Tech (CSE), Shivalik College of Engineering (UTU) - Dehradun, Uttarakhand - (79.9%)

2018 – 2022
